LIGHTPLAST® PRO

LIGHT SUPPORT ELASTIC ADHESIVE BANDAGE

Versatile elastic adhesive bandage for all-purpose taping and strapping of ankles, knees, wrists and hands. The unique fabric backing of **Lightplast® Pro** is made of a cotton/spandex blend which helps it to conform to body movement.

PRODUCT BENEFITS

- Consistent unwind and hand tear assures smoother, faster wrapping
- Moisture-resistant rubber adhesive securely holds bandage against sweat and rain
- Air permeable to help prevent skin maceration
- No-waste core allows use of entire roll
- Conforming bandage provides comfortable, light and cool protection

INDICATIONS

- Treatment of sprains and strains
- Prophylactic use against sports injuries
- Retention of dressings

Caution: This product contains dry natural rubber.

LIGHTPLAST® COHESIVE

COHESIVE LIGHT SUPPORT BANDAGE

Lightplast® Cohesive is constructed from a combination of polypropylene fibres and elastic yarns and coated with a natural rubber compound to enable it to adhere only to itself. **Lightplast® Cohesive** is versatile and suitable for use where light support or compression is needed.

PRODUCT BENEFITS

- Easy to use: No pins or clips are required to hold the bandage in place
- Unique construction, non-slip coating: Maintains consistent support and compression, bandage will remain in place even during periods of increased movement, e.g., sports
- Strong, light and durable: Can easily be removed and reapplied if necessary
- Flexible substrate: 150–200% stretch allows the bandage to conform to awkward body contours, leading to increased patient comfort and compliance
- Air permeable: Allows the skin to breathe making longer periods of wear more comfortable
- Patient comfort: Adheres only to itself and not to the patient's skin

INDICATIONS

- General support for sprains, strains and soft tissue injuries
- Prophylaxis: Prevention of sports injuries by wrapping targeted areas
- Retention of dressings, splints and hot/cold packs
- Skin which can be damaged or irritated by adhesive bandages: Ideal for use on delicate skin

Color	REF No.	Unit of Measure	Size

	7348906	30 rolls/ctn	3 in x 6 yd

Caution: This product contains dry natural rubber.

CO-PLUS® LF

LIGHTWEIGHT COHESIVE BANDAGE

Co-Plus® LF is a flexible cohesive bandage, ideal for use by healthcare professionals and patients with a sensitivity to natural rubber latex.

PRODUCT BENEFITS

- A unique synthetic construction, incorporating a combination of nylon and viscose yarns coated with a latex-free component to provide cohesive properties
- Highly versatile and easy to use – Co-Plus® LF is hand-tearable in both directions, eliminating the need for scissors
- Co-Plus® LF adheres only to itself, not to skin, making the bandage easy to apply and allows effortless pain-free removal
- The unique construction provides consistent, non-slip support
- Co-Plus® LF is able to conform to even the most awkward body contours due to its flexible substrate
- Porous structure which aids skin breathability
- Available in a wide variety of colors, making Co-Plus® LF not only functional, but also attractive to wear

INDICATIONS

- General support and suppression of soft tissue injuries
- Prophylaxis against sports injuries
- Application and retention of dressings, splints, and hot/cold packs, etc.

LEUKOTAPE® P

STRONG, ADHESIVE NON-STRETCH TAPE FOR RIGID SUPPORT

Leukotape® P is a high strength rigid tape with a very strong zinc oxide adhesive, making it ideal for patellofemoral taping. The Leukotape® P Combo Pack is comprised of a roll of Leukotape® P, along with a roll of Cover-Roll® Stretch, Eucerin creme, and adhesive removers.

PRODUCT BENEFITS

- Leukotape® P is specifically designed for the patellofemoral (McConnell) taping technique for correcting patellar position
- Excellent for managing chronic shoulder problems by realigning shoulder-related structures, taping and retraining muscles
- High tensile strength, yet hand-tearable for easy application

INDICATIONS

- Patellofemoral taping
- Rigid joint immobilization and limitation of movement

Color	REF No. / BNR No.	Unit of Measure	Size
● Beige	76168/7616800	30 rolls/case	1.5 in x 15 yd

Caution: This product contains dry natural rubber.

COVER-ROLL® STRETCH

CONFORMING, ADHESIVE FIXATION DRESSING

PRODUCT BENEFITS

- Soft, stretchable non-woven polyester material adapts well to body contours
- Provides light compression without causing constriction or congestion
- The polyacrylate adhesive holds dressing safely and reliably in place

Color	REF No.	Unit of Measure	Size

	45556	1 roll/box	12 in x 10 yd

TENSOPLAST®

ELASTIC ADHESIVE BANDAGE

Tensoplast®, formerly Elastoplast®, is an elastic adhesive bandage which is suitable for medium support or compression. Superior stretch and regain provides firm, controlled compression and support. Non-fray edges prevent the bandage from rucking or marking.

PRODUCT BENEFITS

- High adhesive properties
- Provides strong compression and long-term support
- Water repellent
- Air permeable

INDICATIONS

- Treatment of all conditions which require limitation of movement, e.g., sprains, sport injuries
- Prophylactic use in active sport
- Retention of dressings and devices, e.g., post-orthopedic and general surgery or over a muscular wound

Caution: This product contains dry natural rubber.

LEUKOTAPE® K

KINESIO THERAPEUTIC ADHESIVE TAPE

Leukotape® K supports sensory functions. Wave pattern adhesive allows air to circulate and full mobility is preserved. It is stretchable, and works ideally with the skin's natural elasticity. It has a protective liner for better handling. **Leukotape® K** has a polyacrylate adhesive for reliable adhesion, while the backing material of cotton is hard wearing and skin friendly.

PRODUCT BENEFITS

- Supports sensory functions
- Wave pattern adhesive allows air to circulate
- Extremely thin and skin-friendly
- Patient-oriented and patient-friendly

INDICATIONS

- Muscular Pain
- Back Pain
- Headache
- Lymphedema
