

Cutimed® Sorbion® Border

High-performance superabsorber combined with quick and reliable fixation and atraumatic removal

**Reliable &
Efficient Exudate
Management**

Cutimed®

The challenges of exudate management

Exuding wounds pose various risks that may inhibit wound healing including **maceration**.

While it is recommended that superabsorbent dressings are used in cases of exuding wounds, they can often be **complicated** and **time-consuming** to apply due to required secondary fixation.

It's important to find a solution that is comfortable, safe and easy to apply to improve clinical efficiency and patient-comfort.

A high performance superabsorber with new and high tack silicone border for atraumatic application

Patient friendly

- Reduced pain during removal due to skin-friendly silicone adhesive*

► Gentle fixation

User friendly

- Secure fixation due to high tack silicone technology
- Less dressing changes due to HRT** enabling prolonged wound rest

► Time and cost-saving

Reliable fluid retention

- Absorbs and reliably retains wound fluids within the superabsorbent core
- Removal of wound healing inhibiting factors, including bacteria and proteases
- Promotes a moist wound environment, which supports the body's own wound healing

► Maceration protection

Effective under compression therapy

- Retains the majority of absorbed exudate even under compression

► Enables holistic therapy

Cutimed® Sorbion® Border can be used for moderate to excessively exuding wounds such as:

- Diabetic foot ulcers
- Oozing laparotomy wounds
- Pressure Injuries
- Fistulas to the skin
- Exulcerating carcinomas
- Postoperative wound dehiscence and similar exuding wounds

*Compared to standard adhesive
**Hydration Response Technology

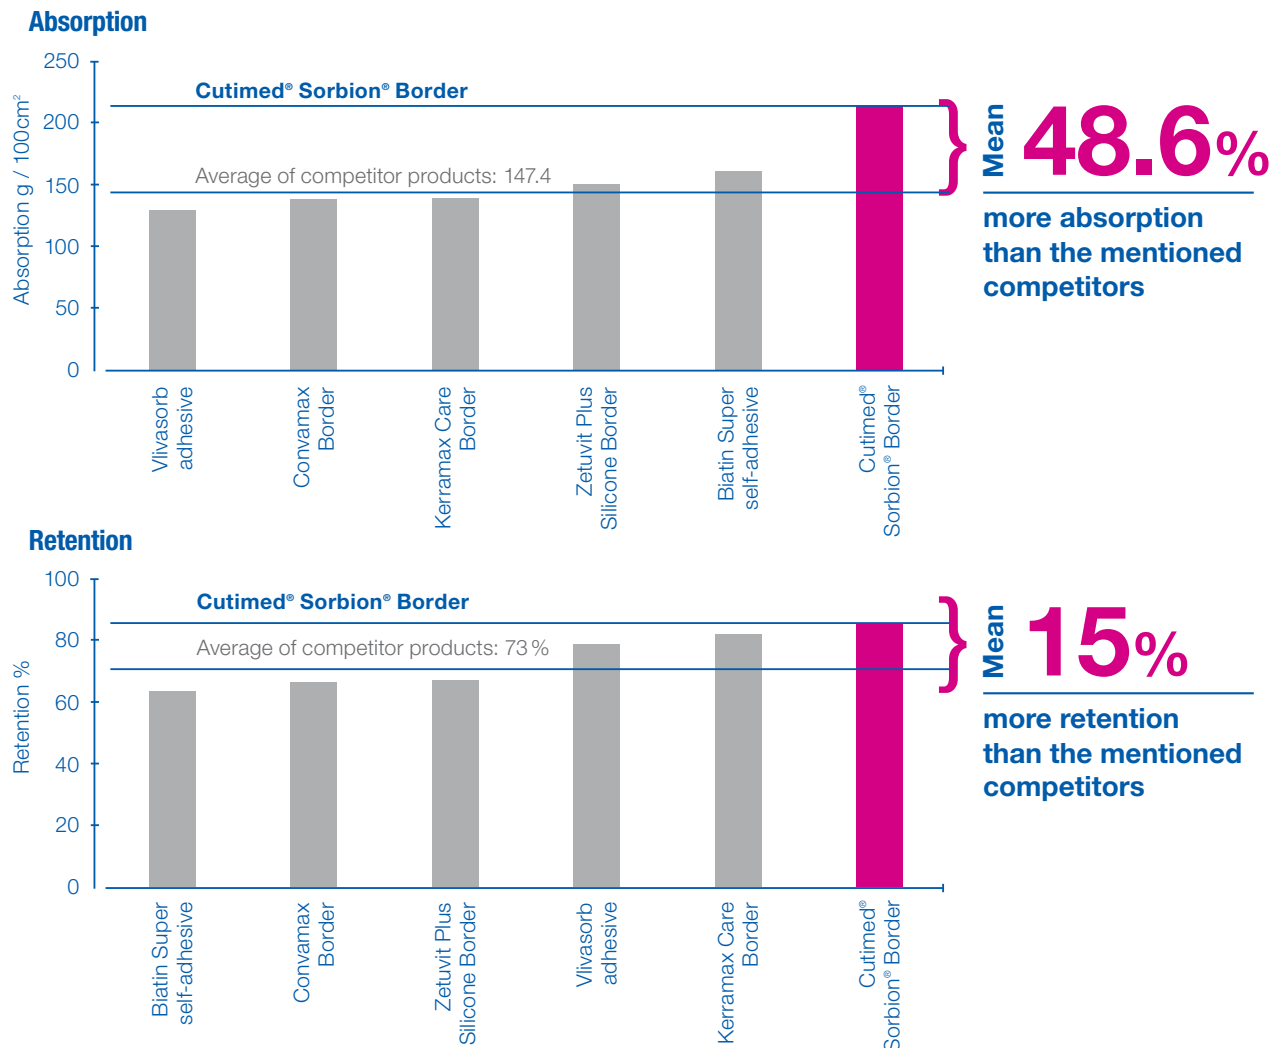

How Cutimed® Sorbion® Border works

Cutimed® Sorbion® Border includes an high tack silicone border that allows for:

- Secure adhesion to the skin
- High breathability
- Gentle and atraumatic dressing change
- Easy repositioning
- Skin friendly (Silicone technology)
- Shower proof

Discover the proven efficacy of Cutimed® Sorbion® Border in advanced exudate management

The evaluation is based on DIN EN 13726-1:2002. Testing was performed by the independent laboratory Surgical Material Testing Laboratory (S.M.T.L.) 2021.

For high performance exudate management and soft removal – choose Cutimed® Sorbion® Border!

High performance superabsorber

- High absorption and retention capacity
- Effective wound exudate management even under compression
- Maintains moist wound environment

High tack silicone border

- Secure and reliable fixation
- Atraumatic application and removal
- Time- and cost-saving
- Repositionable
- Showerproof

Cutimed® Sorbion® Border		
Item Number	Dimensions	Box Quantity
7101000	4" x 4"	10
7101002	6" x 6"	10
7101003	8" x 8"	10
7101004	4" x 9"	10
7101008	7.6" x 8.6" (Sacrum shape)	10
